

# Unifine<sup>®</sup> SafeControl<sup>®</sup>

Safety Pen Needle with Dual-Protection

## THIS IS CUTTING-EDGE PROTECTION.

Introducing the next generation in safety pen needles, designed to protect both patients and healthcare professionals, while providing confidence in dose-delivery.

Has your current needle addressed?

- Premature activation
- Medication and supply waste
- Concerns about dosage delivery
- Dual-Protection

Designed to reduce accidental needlesticks, improve confidence, lower costs. Take control.

**Unifine® SafeControl®**  
Safety Pen Needle with Dual-Protection

# WHAT IT IS AND WHY YOU WANT IT

## Double the safety.

Needle protected on both ends providing dual protection.

## See the proof.

Needle visible, allowing you to verify dosage delivery.

## Looks different. Works the same.

Makes operation easy and intuitive. Similar to the most popular syringes.

## Take Control

Other safety pen needles may prematurely activate before the dose is administered. Unifine® SafeControl® is designed to provide healthcare professionals with the right balance of safety and control, from injection to retraction.

### What Healthcare Professionals are Saying

preferred Unifine® SafeControl® over other choices<sup>1</sup>

agreed that the device provides the right combination of safety and drug delivery control during injection<sup>1</sup>

agreed they could use the same technique as a conventional pen needle<sup>1</sup>

PRODUCT RANGE

**5 mm**  
x 30G

NDC: 08470-7955-01  
UPC: 384707955017

**8 mm**  
x 30G

NDC: 08470-7935-01  
UPC: 384707935019

### Visual confirmation of dose-delivery

Intuitively designed to provide enhanced user control.<sup>1</sup>

### Universal Fit

Compatible with most injection pens<sup>2</sup>
