# Unifine® SafeControl®
Safety Pen Needle with Dual-Protection

## How to Use

**1.**

Remove the protective seal. Screw needle onto injection pen and inject as per pen instructions.

**2.**

Push needle cover over needle until it clicks and orange indicator is visible.

**3.**

Unscrew needle and dispose of in sharps container.

Wash hands thoroughly and/or change personal protective equipment before and after using the device in accordance with your institution's guidelines.
